

HYDRO TWISTER® SURFACE CLEANERS

Hydro Twisters® are industrial flat-surface cleaners that connect to a pressure washer and use a spray bar rotating at a high speed just above the ground to clean concrete more consistently and faster than an operator with a wand, with less fatigue. A surface cleaner uses much less water than a hose wash down. Hydro Twister surface cleaners can be used with cold water or up to 250°F hot water, on some models, for extra stubborn grease or grime, eliminating the need for soap pretreatment in most applications.

The Hydro Twister® Advantage... Low Profile Deck: Will fit under benches & machinery, Less Fatigue: Handle is mounted at an ideal working angle, rustproof, stainless deck & handle, heavy duty for daily use, Brush guard to reduce splash on building windows and operator.

Hydro Twister® suggested applications: Driveways, drive-thrus, patios, garages, concrete sidewalks & parking lots, school yards, factory & warehouse, restroom floors, food processing floors, service stations, pool decks, sport courts, roofs & decks, loading docks, tile flooring, stadiums, marina docks, mold, moss & mildew removal.

HOT
WATER

The **TRIDENT HYDRO TWISTER®** cleans more square footage than others in their class. The proprietary aluminum spray arm with compound angled nozzles not only clean up to the edge but also push water aside to create more impact on the surface they clean. All stainless, rustproof deck and handle construction will keep your surface cleaner working and looking great for years.

TRIDENT HYDRO TWISTER®

3 Casters with Wishbone Handle

The caster version with three non-marking casters that allow the operator to freely move side to side or forward. Handle is free floating and folds for storage. The high pressure hose is protected inside the stainless handle tubing, ready for you to connect the pressure washer trigger gun.

MODEL	PSI	GPM	DECK	NOZZLES*	TEMP	WT	LIST
ANT24	3000-5000	3 - 6	24"	(2) 2.7	210°F	33	\$1,207.81
ANT28**	4000	5.5 - 10	28"	(2) ea. #1 & #2	250°F	45	\$1,694.08

*NOTE: Nozzles -15° **28" deck, high flow swivel, 4 nozzle spray bar with optimized thrust angle, 3 casters.

1 Caster & 2 Airless Rear Tires with Hoop Handle

A front non-marking caster paired with two large, airless tires reduce fatigue when working in straight lines. Dial up or down the pressure as needed from the hoop handle which folds down for carrying or storage.

ANT25	3000-4000	3 - 6	24"	(2) 2.7	210°F	43	\$1,420.32
ANT29**	4000	5.5 - 10	28"	(2) ea. #1 & #2	250°F	53	\$1,890.59

*NOTE: Nozzles -15° **28" deck, high flow swivel, 4 nozzle spray bar with optimized thrust angle, two airless rear wheels with hoop handle.

HYDRO TWISTER® SURFACE CLEANERS

The Contractor Hydro Twister® is the proven choice for professional surface cleaning...with four tools for your cleaning needs. The Contractor Twister combines a rotary surface cleaner, spot / gum remover, hydro broom, and an edger to create an **all-in-one deluxe surface cleaner**. The dual trigger guns activate either the rotary spray arm or one of the other three on-board tools. By combining four processes into one unit, you will save time and fatigue when cleaning large expanses of concrete, parking lots or other flat surfaces. The secret that makes the Contractor Hydro Twister® so effective is the ideal water spray angles and nozzle heights that optimize cleaning power.

An onboard edging tool cleans close to planters, columns, and walls or use the water broom to rinse a large area.

Caster pivot lock allows the operator to choose to lock casters for use in straight lines or unlock for cleaning side-to-side.

The under-deck spot remover uses a "six-shooter" nozzle to blast away gum or paint.
